Aspiring DevOps & Python Engineer

Professional Summary

Computer Science Engineering graduate with hands-on experience in Linux, AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Maven, and Snyk. Skilled in building CI/CD pipelines, automating deployments, and implementing DevSecOps practices through vulnerability scanning. Passionate about cloud technologies, automation, and delivering reliable software solutions.

Education

Sri Venkateswara College of Engineering and Technology	2022–2026
Bachelor of Engineering – Computer Science and Engineering	CGPA: 8.59
- Recognized as Class Topper. - Core CS: Data Structures, Operating Systems, Cloud Computing.	
Sri Chaitanya Junior College	2020–2022
Higher Secondary Certificate (HSC)	92.2%
Sri Chaitanya Techno School	2020
Secondary School Leaving Certificate (SSLC)	94.5%

Technical Skills

- Programming: Python, C, SQL
- DevOps: Jenkins, Docker, Kubernetes, Git/GitHub, GitHub Actions, Maven, Ansible, Apache Tomcat
- Cloud: AWS (EC2, S3, VPC, EKS, IAM)
- Security: Snyk, Vulnerability Scanning
- OS: Linux (Ubuntu/CentOS), Windows

Projects

Automated CI/CD Pipeline Implementation

- Built CI/CD pipeline using Jenkins, Docker, Maven and Linux.
 - Reduced manual build effort through automated integration.
 - Deployed applications to Apache Tomcat using Docker containers.
- GitHub Repository

Water Quality Monitoring & Risk Prediction

- Developed ML-based application using Python and Scikit-Learn.
 - Performed preprocessing, visualization and water quality prediction.
- GitHub Repository

IMDB Movie Dataset Analysis

- Performed exploratory data analysis on 1000+ movie dataset.
 - Visualized genre trends and revenue correlations.
- GitHub Repository

Certifications & Achievements

- Artificial Intelligence – Ediglobe
- DevOps Masterclass – Elevate Labs
- Python for Data Science – Intern Certify
- Academic Achievement: Department Rank 1

Relevant Coursework

Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Cloud Infrastructure, Software Engineering, Object-Oriented Programming.
